hello :)

# RECENT PROJECTS

### commercial website

*accordion abuse entertaiment, 11.2022 - 02.2023*
*my role: web designer*

The goal was to combine the 3 different services the company offers on one site. The design process included: learning about the services, understanding the owners' objectives, selecting the style and voice of the site, preparing wire-frames, copy and materials for the developer.

Click the link to see the project: AAE website

### responsive web application

*toilet finder, 04.2023 - 05.2023*
*my role: UX/UI designer*

Toilet Finder is a responsive web application based on geolocation.
The project contained both UX and UI steps. I used design thinking, different ways of testing with users, SWOT, crazy 8', and Jakob Nielsen's error severity rating.

### wordPress site

*mizie.pl, 2022*
*my role: web designer*

Initial layout proposal for a website offering intimate courses for couples based on the Luminate template - editing components, typography selection, preliminary user research.

# WORK EXPERIENCE

### visual designer & creative consultant

*05.2015 - present, 3C, Poland*

As a designer, I collaborate with a diverse range of clients, assisting them in meeting their business needs while creating captivating and impactful visual experiences. Discuss, understand, conduct researches and create a projects keeping in mind the budget, use cases, and client's goal.

Clients receive valued market insight and high-quality materials following the agreed brief, improving the clients' visibility and public appearance. 99.9 percent of clients come back for future projects.

### team leader / printing technologist

*11.2016 - 10.2018 & 11.2019-04.2021, bySolara, Poland*

Coordinating a printing department of 3 people.

Managed the flow of materials along with the team, conducted desktop publishing projects review, acted as a connector between the sales and production departments and worked with the unique needs of clients and subcontractors.

Printed materials and ensured almost 100 percent quality and on-time delivery to customers.

### print & copy editing coordinator

*06.2019 – 08.2019, Avon, Poland*

Deliver layout for Avon catalog every three weeks in 5 languages.

Conducted desktop publishing and communicated with graphics to make recommendations and resolve issues.

Avon catalog was published on time every three weeks for 5 countries, ensuring product sales continued.
